

NEUTRALEZE LQ

LIQUID ACIDIFIER

Neutraleze LQ is for use as a passivating agent, it complies with ASTM A380

and A967 standards for stainless steel passivating. Also, it could be used for

neutralizing tripe after scalding. Neutraleze LQ will help reduce pH of the

DIRECTION FOR USE: For use as a general acidifier, and in particular for

neutralizing tripe after processing. The following directions are based on

a cylinder type tripe washer loaded with about 70 tripe that have been

previously washed and bleached. Check the pH. If the pH is greater than 8, fill the cylinder with cold water and add 3 pounds (0.3 gallons) of Neutraleze

LQ. Rinse with cold water for 3 minutes. Check the pH again. If it is still too

high, repeat the procedure. If the pH is acceptable, remove the tripe from

DANGER

Causes severe skin burns and eye damage. Prevention:

Do not breathe dusts or mists. Wash face, hands and any exposed skin thoroughly after handling. Wear protective gloves/protective clothing/eye protection/ face protection. **Response:** Immediately call a poison center or doctor. Specific treatment (see Section 4 on SDS). **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy
