

FB-2536

INDUSTRIAL STRENGTH DEFOAMER

This chemical is not considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200). Not a dangerous substance or mixture according to the Globally Harmonized System (GHS).

FB-2536 is a difunctional block copolymer surfactant type defoaming agent for use as a defoaming aid in HTST/UHTST processing systems, reuse CIP systems, evaporator and dryer CIP systems, and any other non-membrane based processes where defoaming might be required. Additionally, FB-2536 aids cleaning through surface tension reduction and soil penetration.

Recommended First Aid: **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. **IF ON SKIN (or hair):** Remove contaminated clothing. Rinse skin thoroughly with plenty of water. **IF SWALLOWED:** Do not induce vomiting. Have a conscious victim drink water to dilute. Never give anything by mouth to an unconscious person. **IF INHALED:** Remove to fresh air.

DIRECTIONS FOR USE: Add FB-2536 to cleaning solution at quantity required to reduce foam to desired level. Typically, a solution of 0.5 oz. per 10 gallons of water is a good starting concentration. For more information contact your Safe Foods Chemical Innovations' Representative.

Storage: Keep container closed. Store at 40-120°F. Protect from freezing.

Read SDS before using this product.
