

SPIRALCLENZ™ 2300A

NEUTRAL, ENZYMATIC LIQUID CLEANER

DANGER

May damage fertility or the unborn child. Causes serious eye damage.

Prevention: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Use personal protective equipment as required. **Response:** If exposed or concerned: Get medical

advice/attention. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center or doctor.

Storage: Store locked up. **Disposal:** Dispose of contents/container to an approved waste disposal plant.

Recommended First Aid: IF ON SKIN (or hair): Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if irritation develops and persists. Wash contaminated clothing and shoes before reuse. **IF INHALED:** If symptoms such as nose or throat irritation are observed, remove person to fresh air. If not breathing, give artificial respiration. Get medical attention immediately if symptoms occur. **IF SWALLOWED:** Do NOT induce vomiting. Drink plenty of water. Never give anything by mouth to an unconscious person. Call a physician immediately.

SpiralClenz™ 2300A is a neutral, enzymatic liquid cleaner. It is designed for use with SpiralClenz™ 2300B alkaline cleaner as a two-part cleaning system for reverse osmosis, nanofiltration, ultrafiltration, and microfiltration membrane systems. The SpiralClenz™ 2300A and 2300B program is specifically formulated to penetrate and loosen protein bonds to membrane surfaces without the use of aggressive oxidizing chemicals. This product is not intended for use on cellulose acetate membranes.

DIRECTION FOR USE: SpiralClenz™ 2300A is normally diluted to 0.02 to 0.04% solution depending on the soil type to be removed. Add SpiralClenz™ 2300B to a pH of 9.3-9.5, then add SpiralClenz™ 2300A. This product is approved for use with enzyme, alkaline, and acid cleaning products. Contact your Safe Foods Chemical Innovations Sales and Service Representative for use recommendations.

Before use in federally inspected meat and poultry food processing plants and dairies, food products and packaging materials must be removed from room or carefully protected. This product should not come into direct contact with meat, shell eggs, or other food products.

Additional Precautions: Corrosive! Contains sodium tetraborate and sodium metabisulfite.
