

# KC-47

## RUST REMOVER

### WARNING

**Harmful if swallowed. Causes eye irritation.**  
**Prevention:** Wash face, hands and any exposed skin thoroughly after handling. Do not eat, drink or smoke when using this product. **Response: IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. **IF SWALLOWED:** Call a poison center or doctor if you feel unwell. Rinse mouth. **Disposal:** Dispose of contents/container to an approved waste disposal plant.

**Recommended First Aid: IF ON SKIN (or hair):** Rinse skin with water. Get medical attention if irritation develops and persists. Wash contaminated clothing and shoes before reuse.

Read SDS before using this product.

KC-47 is a rust remover compound designed to effectively remove rust from conveyor rails and chains.

**DIRECTION FOR USE:** Wash rails and chains thoroughly to remove all soils and cleaning compounds. Apply KC-47 by spraying onto the rails and chains at 4-6 ounces per gallon of water. The solution should be applied on a small section at a time, allow to set for 1 minute before proceeding to the next step. Do not rinse. Apply PC-720 or PC-721 Lubricant (diluted 1:5 to 1:35 with water) on top of the KC-47 previous applied. Do not rinse. Wait 36-48 hours to allow the rails and chains to cure before cleaning. Follow normal rail and shackle cleaning procedures and repeat the process, if needed, to ensure thorough rust removal.
