

TECHNICAL DATA SHEET

CC-262 POLYFOAM

Description:

CC-262 Polyfoam is a high foaming, all-purpose cleaner and degreaser, which contains no phosphates or VOCs. CC-262 Polyfoam can be used as a base concentrate with adding acid or alkaline boosters. CC-262 Polyfoam may be applied by brush, through a foaming device or by soaking on equipment, utensils, walls, and floors in all departments of meat, poultry, dairy and general food processing plants.

Physical Properties:

Appearance – Clear blue liquid
Odor – Mild
pH – 7-9
Density – 8.58 pounds per gallon
Foaming – Very high
Rinsing – Excellent

Directions for Use:

Dilute 8 to 48 mL of CC-262 Polyfoam per Litre of water. Apply by hand scrubbing, soaking, or foaming. For in-depth cleaning, addition of a strong acid or alkaline booster might be required. Mix thoroughly and apply by hand scrubbing, soaking, or foaming. Equipment or surfaces subject to direct contact with food are to be thoroughly rinsed with potable water after treatment with this product. When using as a foaming concentrate, always add water in between the CC-262 Polyfoam and the acid or alkaline booster.

Safety:

Danger! Causes serious eye damage and damage to organs through prolonged or repeated exposure. Harmful to aquatic life with long lasting effects.

Read Safety Data Sheet (SDS) before using this product.

Storage:

Keep container covered and store in a cool, dry place. Keep from freezing.

Regulatory Status:

CC-262 Polyfoam does not contain ingredients of animal origin or ethanol and does not come into contact with materials of animal-origin or ethanol during processing or storage.
