BATCH:

FB-1407 is a strong acid-based cleaner for removing alkali scale and mineral buildup from stainless steel surfaces of meat, poultry, and dairy processing equipment. It is especially effective for cleaning tanks, vats, and pipelines. FB-1407 is non-foaming and suitable for CIP and high temperature applications.

**DIRECTIONS FOR USE:** Mix 1 to 5 ounces of product per gallon of hot water (100-140°F) to remove non-organic soils by brush, circulation, pressure spray or soaking and to neutralize residual alkalinity on stainless steel equipment. It may also be used for de-rusting, scale removing, and/or brightening of stainless steel and aluminum surfaces. This product should not come into direct contact with food products. After use thoroughly rinse surfaces with potable water to remove all residue.

**Additional Precautions:** Oxidizer! Corrosive! Contains phosphoric and nitric acid.
