

TECHNICAL DATA PAC-200 ALL PURPOSE CLEANER

Description:

A top quality all-purpose liquid butyl cleaner and degreaser for use in industrial, institutional and food plant applications. It can be used to clean almost any surface. It will not harm plastic, cloth, paint or vinyl. It is efficient in cold or hot water, is safe on aluminum and painted surfaces and is non-flammable. All food contact surfaces should be thoroughly rinsed with potable water.

Directions for Use:

For damp mopping and light duty cleaning of floors and walls, dilute with 100 parts of water.
For general cleaning and degreasing of floors and walls, dilute with 40 - 80 parts of water.
For cleaning and degreasing of furniture and fixtures, dilute with 10 - 20 parts of water.
For steam cleaning and high pressure washing of vehicles and equipment, dilute with 20 - 40 parts of water.
For heavy duty cleaning jobs, dilute with 5 - 10 parts of water

Contains:

Organic solvent, water softeners and surfactant.

FOR FOOD PLANT & INDUSTRIAL USE ONLY
