DANGER

Provoque de graves brûlures de la peau et de graves lésions des yeux.

Ne pas respirer les poussières ou les brouillards.
Se laver les mains soigneusement après manipulation.
Porter des gants de protection, des vêtements de protection, un équipement de protection des yeux/du visage.

EN CAS D'INGESTION: Rincer la bouche. Ne PAS faire vomir. Appeler immédiatement un centre antipoison ou un médecin.

EN CAS DE CONTACT AVEC LA PEAU (ou les cheveux): Enlever immédiatement tous les vêtements contaminés. Rincer la peau à l'eau. Laver les vêtements contaminés avant réutilisation. Appeler immédiatement un centre antipoison ou un médecin.

EN CAS D'INHALATION: Transporter la personne à l'extérieur et la maintenir dans une position où elle peut confortablement respirer. Appeler immédiatement un centre antipoison ou un médecin.

EN CAS DE CONTACT AVEC LES YEUX: Rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et si elles peuvent être facilement enlevées. Continuer à rincer. Appeler immédiatement un centre antipoison ou un médecin.

Absorber toute substance répandue pour éviter qu'elle attaque les matériaux environnants.

Garder sous clef.

PAC-641

NON-PHOSPHATE ACIDIFIED QUAT

This product is a concentrated lactic acid and quaternary ammonium compound-based low-foaming cleaner and sanitizer ideally suited for use in food plants and other industrial applications.

It will remove hard water scale build-up and restore cleanliness and brightness to stainless steel parts and surfaces. The use of this product should be preceded by cleaning and degreasing with a proper alkaline cleaner to remove organic soil.

DIRECTIONS:

Dilute product as required with water and apply with a sprayer, brush or by soaking. Ensure a contact time of 2-10 minutes for effective sanitizing before rinsing.

For sanitizing heavy soil loads, dilute product 1 part to 45 parts of water to give 1500 ppm active sanitizing. For routine sanitizing and descaling, dilute product 1 part to 90 parts of water to give 750 ppm active sanitizing. For no-rinse sanitizing, dilute product 1 part to 300 parts of water to give 200 ppm active sanitizing.

Food equipment and food contact surfaces should be rinsed clean with potable water after use. Avoid contamination of food during application and storage.

CAUTION: Do not mix with any other chemicals. Avoid prolonged contact with aluminum.
