PORCELAIN CLEANER

Description:

This product is an acid-based cleaner with adhesive properties enabling the product to stick to surfaces and provide contact time with dirt and stains. It contains non ionic surfactants and pleasant perfumes. The acids are inhibited and will not harm plumbing. It is ideal for use in institutional, commercial and food plant applications.

Directions for Use:

Squeeze bottle and squirt a light film of product over surface to be cleaned. Spread product evenly over surface with a bowl mop or brush. Allow 5 minutes contact time to loosen scale and stains. Then rinse clean.

Caution:

Contains lactic and hydrochloric acids. Do not use with bleach or alkaline cleaners. Avoid prolonged contact with chrome plated fixtures. Use only on acid resistant surfaces. Avoid contamination of food during application and storage. Not for use on food contact surfaces.

Contains:

Lactic acid, hydrochloric acid, surfactants, opacifier and xanthan gum.

FOR FOOD PLANT & INDUSTRIAL USE ONLY
